

The following is a list of the most commonly prescribed drugs. It represents an abbreviated version of the drug list (formulary) that is at the core of your prescription drug benefit. The list is not all-inclusive and does not guarantee coverage. In addition to using this list, you are encouraged to ask your doctor to prescribe generic drugs whenever appropriate.

PLEASE NOTE: Brand-name drugs may move to non-formulary status if a generic version becomes available during the year. Not all the drugs listed are covered by all prescription drug benefit programs; check your benefit materials for the specific drugs covered and the copayments of your prescription drug benefit program. For specific questions about your coverage, please call the phone number printed on your member id card.

Thin Blue Line Benefits - Value Plan Formulary

LABEL NAME	GENERIC DESCRIPTION	PLAN TIER
Abacavir Sulfate 20 MG/ML SOLUTION	ABACAVIR SULFATE SOLN 20 MG/ML (BASE EQUIV)	Tier 1 - Generic
